The upgrades and finishing touches that have been incorporated in this executive home in amenity packed Carolina Bay add both space, comfort and style to this highly desirable floor plan. From the Charleston style double porches, gas lantern and custom front door that greet you as you approach to the designer light fixtures, shiplap and trim accents throughout, and plantation shutters, you'll appreciate the finer details added to this meticulously maintained home. Intelligently designed to accommodate a work from home lifestyle, having all bedrooms, laundry and bonus loft upstairs, this home allows privacy while keeping an open floor plan. Downstairs and tucked to the front of the house is the office with French doors, separate dining area and powder bath. The floor plan then opens to the great room with 4' bump out extension, breakfast area, sunroom, a drop zone off the garage and a planning center. As you're drawn outside by the well-manicured lawn and landscaping you'll appreciate the shade of the custom built pergola with built in bar and the natural gas line for a grill assuring you'll never run out of fuel. Enjoy nights in your private fenced in backyard around the firepit after you've come back from one of the many community events. Hop in your golf cart easily stored in the extended garage and you can take part in Movie Nights, Art's and Craft
